SUMMARY

Aspiring Software Engineer skilled in Java, DSA, and Full-Stack Developer enthusiastic about creating scalable systems, enhancing performance, and contributing to impactful tech products

EDUCATION

Pune Vidyarthi Griha's College of Engineering, Nashik 2023 – 2027
Bachelor of Engineering in Artificial Intelligence and Data Science

KRA College, Deola 2021 – 2023
Higher Secondary Certificate (HSC), Maharashtra Board

Yashwantrao Chavan Vidyalaya, Niwane
Secondary School Certificate (SSC), Maharashtra Board

TECHNICAL SKILLS

Languages: Java, JavaScript, python

Frameworks & Libraries: ReactJS, Next.js, GSAP, Express.js

Databases: MySQL, MongoDB, Firebase

Tools & Platforms: VS Code, Git, GitHub, Notion

Other Skills: Quick Learning, Team Collaboration, UI Development

PROJECTS

Task Manager — HTML, CSS, JavaScript ([GitHub](#))

A student-focused task organizer for managing study and assignments. Features drag-and-drop task reordering, smooth animations, and persistent data storage using localStorage.

Mess Management System — HTML, CSS, JavaScript, jsPDF ([GitHub](#))

A responsive web app to track daily tiffin records, rent, and bills with live calculations and PDF export. Enables mess customization and automatic data persistence.

Portfolio Website — ReactJS, Next.js, GSAP, NodeMailer ([Live](#))

A modern portfolio website showcasing projects and skills with GSAP-based animations and a functional contact form integrated via NodeMailer.

WORK EXPERIENCE

Web Development Intern Feb 2024 – Mar 2024
Technohacks, Maharashtra, India

- Completed a virtual internship delivering three front-end projects using HTML, CSS, and JavaScript.
- Gained hands-on experience in responsive design, DOM manipulation, and version control through Git.

EXTRACURRICULAR ACTIVITIES

GFG 160 Days Coding Challenge Jul 2023 – Apr 2024
Solved daily DSA problems on GeeksforGeeks to strengthen algorithmic problem-solving and consistency in coding.
